

Top connection

Professional and fast installation: HARO Top Connect

Preferences differ when it comes to installation – but everyone wants it be quick and easy! With the new Top Connect installation system from the Rosenheim parquet “livery”, a new dawn has broken in laying parquet floors. Angle in on the long side and fit in on the short side with a little bit of pressure on the surface with no tools: that’s how quick and easy the new HARO lock-in system is laid. In conjunction with the ComforTec innovation presented last year, whereby the adhesive is already on the rear side of the board, this will revolutionise parquet installation. Whether installed as floating floors or fully glued down, with Top Connect and ComforTec, HARO has created the ideal combination of installation speed and professional floor laying.

This impressive duo is also available for all Celenio products, among others. Exciting interior world designs can therefore be realised so quickly and easily with HARO’s exclusive wood tiles.

For introduction in January 2009, HARO is fitting the top sellers among the longstrips, planks and the new planks with naturaLin plus with Top Connect. The quality, design and technology of HARO’s products are therefore all at the same eye level.

With the floor covering brand name “HARO”, Hamberger Flooring GmbH & Co. KG in Stephanskirchen near Rosenheim has grown to become the German market leader for parquet and can now look back on almost 60 years of experience in producing parquet. In addition to its Flooring division which offers parquet, cork, linoleum and laminate floors, the Hamberger group of companies also incorporates the Sports Flooring, Sanitary, Wood Cutting and Farming and Forestry divisions. Hamberger was certified according to DIN EN ISO 9001 as early as 1995, followed in 1998 by the certification of its environmental management system according to DIN EN ISO 14001. Hamberger has been PEFC certified since 2004. The PEFC seal provides proof that the raw materials from which Hamberger products are manufactured are sourced from certified, sustainably managed forests. Founded in 1866, the company is today managed by Peter Hamberger and Dr. Peter M. Hamberger, in the fourth and fifth generations. With around 1,650 employees, the group of companies achieves an annual turnover of more than 280 million euros. Around 40% of the company’s products are exported. Goods are exported to more than 70 countries around the world. Further details are available at www.haro.com.
