

**HARO Sports Flooring****Seven at Once**

**Three Fed Cup tournaments simultaneously on seven portable tennis courts from HARO Sports**

**Krakow / Stuttgart / Budapest – High shock absorption on the one hand and maximum mobility on the other: Tennis aces appreciate the portable HARO Sports Rome tennis floor from HARO Sports Flooring and Rebound Ace Europe. In early February some of the world's best female tennis players competed with each other in three Fed Cup tournaments. A total of seven portable tennis courts were used – all at the same time! Besides its sport-specific performance, the floor convinced the decision makers by its quick installation and removal. The flexible high-tech sports floor had already demonstrated its capabilities at the 2014 Fed Cup in Budapest, and so this year the tournament hosts decided to equip a total of five courts with the tennis floor.**

**The best of two worlds**

HARO Rome Tennis combines the best of two worlds: HARO Sports Flooring, a leading manufacturer of portable and fixed-installed, elastic-coating sports floors, provides the technical substructure while Rebound Ace, a leading provider of acrylic-based sports floors, refines the floor with its acrylic surface. Featuring optimal physical performance characteristics and the highest quality standards in compliance with ISO 9001, HARO Rome Tennis is a top player in the world rankings. In addition, the floor fulfils the requirements of DIN V 18032-2 of April 2001 and EN 14904 and is thus approved for use in the Olympic Games and all international tournaments.

The innovative tennis floor is subjectively more pleasant to play and objectively places less strain on the player's body than standard hard courts. Athletes tire less quickly and there is less risk of injury. At the same time the floor ensures the same ball bounce and pace as a hard court.

### **Portable and flexible**

The floor covering for an 820 sq.m. court can be installed in just a few hours – and removed just as quickly. The perfect fit of the patented interlocking system that connects the individual modules even eliminates the need to recoat the surface after installation, which is usually required for portable hard courts. This flexibility is indispensable for intensively used sports facilities in today's sports and event world. The high quality of both the basic construction and the finish ensure that Rome Tennis can be installed and removed hundreds of times. The Rebound Ace<sup>®</sup> acrylic surface enables applying the logos of sponsors, tournament hosts or arena operators in full colour fidelity, thus showing off not only the athletes but also the sponsors to best effect. ■

02/2015

All ready for the game:.. Fed Cup in Krakow, Poland,  
before the match between Poland and Russia.

Under the brand name HARO SPORTS Flooring, portable and fixed-installed elastic-coating sports floors have been produced at the company's Sports Floor Division since 1958. HARO SPORTS Flooring gives decision-makers and investors the opportunity to receive comprehensive advice on the best flooring solution for sports and multi-purpose halls, from a team of experienced experts. Hamberger Industrierwerke GmbH in Stephanskirchen near Rosenheim can now look back on over 60 years of experience in producing parquet. Founded in 1866, the company is today managed by Peter Hamberger and Dr. Peter M. Hamberger, in the fourth and fifth generations. In addition to its Flooring division which offers parquet, cork, laminate and Celenio floors, the Hamberger group of companies also incorporates the Sports Flooring, Sanitary, Hardwood, and Farming and Forestry divisions. Hamberger was certified according to DIN EN ISO 9001 as early as 1995, followed in 1998 by the certification of its environmental management system according to DIN EN ISO 14001. Hamberger Industrierwerke has been PEFC certified since 2002. The PEFC label provides proof that the raw materials from which Hamberger products are manufactured are sourced from certified, sustainably managed forests. With over 2000 employees, the group of companies achieves an annual turnover of around 300 million euros. More than 40% of the company's products are exported. Goods are exported to more than 90 countries around the world. Further details are available at [www.haro-sports.com](http://www.haro-sports.com).
